

Connect ClientGen to Claude.

Four simple steps. Have your Claude login and the email for your active ClientGen connector account ready.

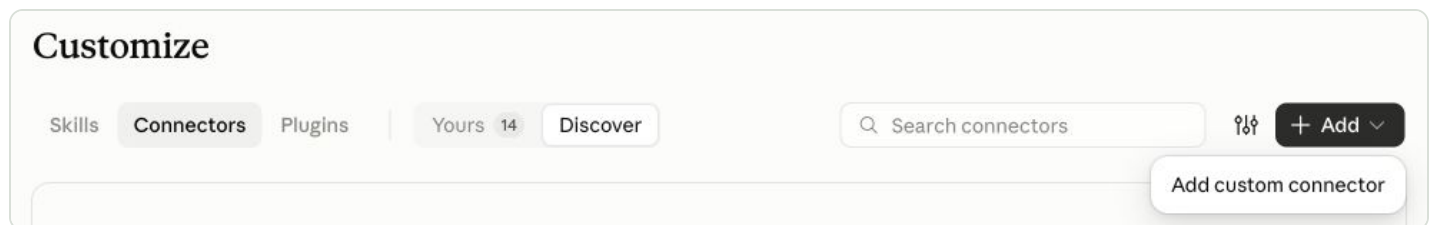

CONNECTOR URL, COPY EXACTLY

`https://mcp.clientgen.app/mcp`

[Open Claude connector settings](#) ↗

01 Open the connector menu

In Claude, open Customize, then Connectors. Select + Add in the upper right, then Add custom connector.

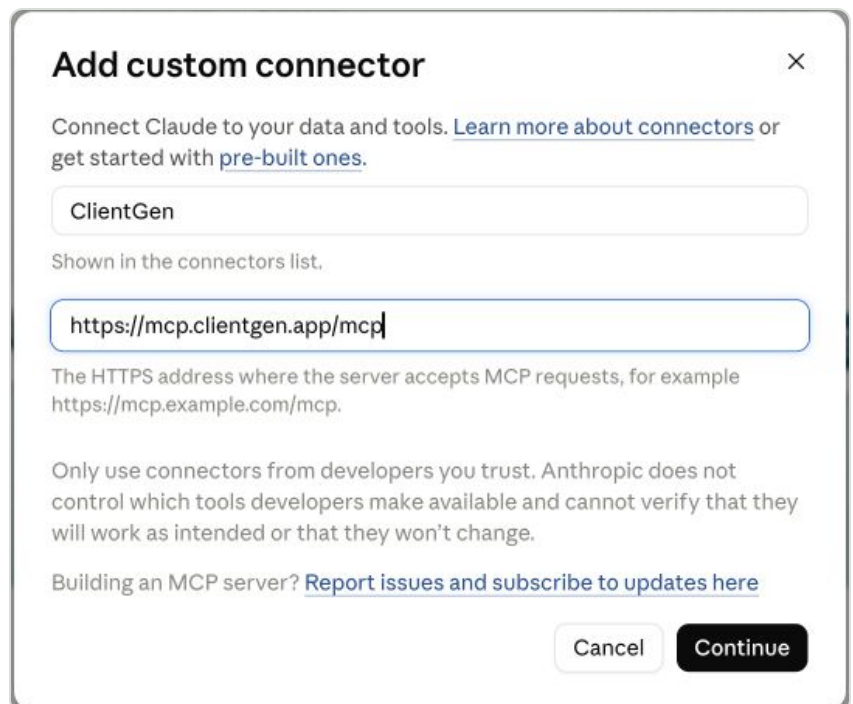

Look for + Add in the upper right, then Add custom connector.

02 Paste the ClientGen URL

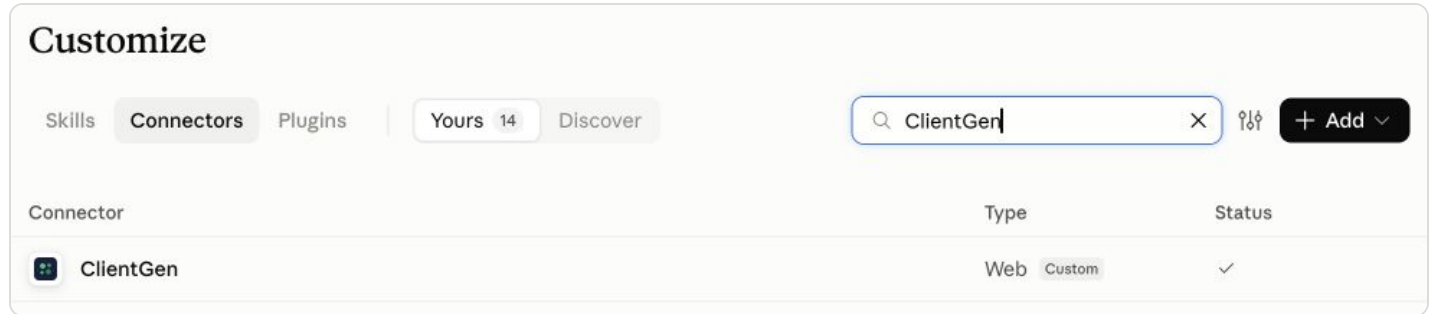

Enter ClientGen as the name. Paste `https://mcp.clientgen.app/mcp` in the server URL field. Select Continue and follow the remaining setup prompts.

Already installed? Open Yours and select the existing ClientGen connector instead of adding it again.

03 Sign in and confirm the connection

Choose Connect if prompted. Sign in with the email on your ClientGen account and enter the emailed code when asked. Review the connection permissions, then return to Claude.

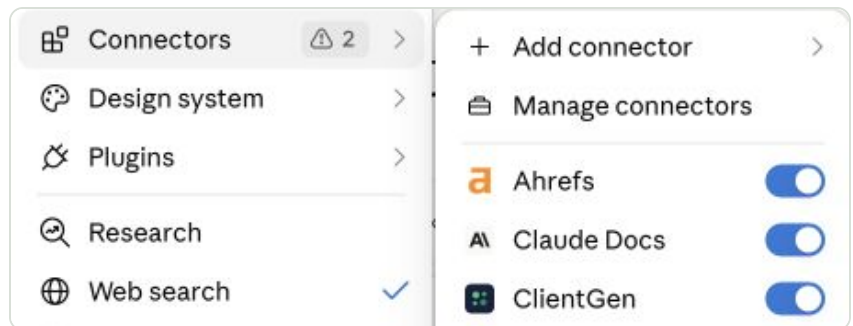

Under Connectors, open Yours and search for ClientGen. A checkmark in the Status column confirms it is connected. [Open ClientGen sign-in ↗](#)

04 Enable ClientGen in your chat

Open a new Claude chat. Select + beside the message box, open Connectors and make sure the ClientGen switch is on. You are ready to ask for your first campaign proof.

The blue switch beside ClientGen means it is enabled. Your other connectors may look different.

Try your first request.

Set up ClientGen for me. Then help me prepare a postcard and matching landing page for review. Do not send or purchase anything.

[Open a new Claude chat ↗](#)

Using a team workspace? An owner may need to add ClientGen in Organization settings → Connectors first. Each person then connects their own account.

Need access or help? [Request activation](#) or email info@clientgen.ai.

Actual Claude screens captured September 22, 2026. Menus may change. [Official Claude setup help](#). ClientGen is an independent connector provider.
